Catdoku: every game's controls

52 games, one page each. Screenshots at phone width (430 px) with the first-visit walkthrough skipped. Cat pictures in the title are hidden; the boards are left as they are.

Each page shows the game **as it opens** (left) and **after pressing Hint** (middle), with a list of what's on the page on the right.

goal / progress row timer note line (`#msg`) hint words (`#hintLine`)

Where help text appears

- **Hint words**: in an orange-outlined line just under the board, above the Hint/Undo/Restart buttons. Pages with no such line (a few action games) show hints in the note line instead. Some games use only the glow and say nothing on screen.
- **Note line** (blue): the short message at the right of the status row, e.g. "Press Complete to check your board."
- **How to play**: a walkthrough on the real board. The rest of the page dims, a caption sits over the board, and a row of page dots with Skip floats at the bottom of the screen. Skipping marks it seen.
- **Shared buttons**: Share, Best times, How to play and Keys (and Toys where a game uses toys) open cards over the board.
